# MOVING AHEAD

About our company

**A tradition of innovation** – that's the company philosophy of MÄRTENS Transportbänder in a nutshell. We have served the market for over 80 years and today are a leading international provider of solutions in our sector.

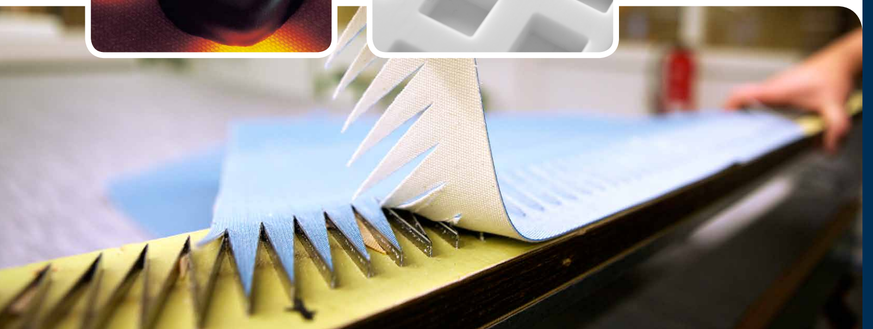
**Quality made in Germany**
We are the only manufacturer to carry metal and plastic conveyor belts in our product range, which we have produced at our company headquarters in Flensburg since opening our doors. Special machine technology and services further complement our extensive portfolio.

**Know what's going on**
That's why we keep a close eye on the market. We also maintain an active dialogue with our customers to determine their needs and unique requirements. These efforts transform business relationships into long-term partnerships.

**Always a step ahead**
The high standard of our products is the result of decades of experience combined with MÄRTENS Transportbänder strength in innovation. As a result, we regularly unveil new innovations to ensure that our customers are always one step ahead in their markets. After all, we strive to make your production as reliable as possible.

**Stay on the safe side with our approvals for food-grade products**

- → **FDA**
- → **USDA**
- → **VO EG 1935/2004**



# SEVEN AT ONE STROKE

Our product groups at a glance:

**ROD NETWORK BELTS:** Made in music wire, stainless steel or K2390 steel, our rod network belts offer you all the advantages of open grid design and precise belt run.

- → Rod network belts are among the most popular conveyor solutions.
- Small deflection radii
- Grid structure for free liquid and air flow
- Guided by various means

*Customised solutions with cones, flights and cleats.*

**METAL CONVEYOR BELTS:** Our metal conveyor belts made from round or flat wire spirals are designed for universal use.

- → These multi-purpose conveyors are particularly suitable for high-temperature applications.
- With looped or welded belt edges
- Permeable and temperature resistant
- Made in stainless steel

*For use in furnaces, ovens, freezers and food processing systems.*

**PLASTIC CONVEYOR BELTS:** We offer conveyor belts with a variety of fabrics, including polyurethane, PVC, silicone, etc.

- → They have been specifically designed for applications where high processing quality is essential.
- Food processing industry
- Processing conveyor systems
- Packaging technology

*Available with different surface finihes, including smooth and embossed with company/brand logos.*

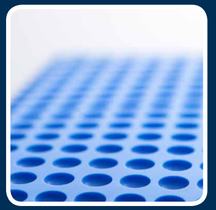
**SEPARATING BELTS:** The elasticated silicone material allows for flexible width adjustment of the product over separating distance.

- → Advanced solution for special applications.
- Product separation
- Product combination
- With anti-stick surface

*Guided, separating range up to 30 %.*

**SILICONE MOULDING BELTS:** Märtens silicone moulding conveyor belts are available with customised surface structures and features tailor-made for your products.

- → The basis for your product ideas.
- Temperature resistant up to 180° C
- Excellent release properties
- Shaped and structured according to customer specifications



*Attractive alternative to mogul system.*

**ACCESSORIES:** Our comprehensive range of additional services and accessories covers everything required for safe and reliable system operation.

- → For safe and secure system operation. .
- Drive and deflection components
- Welding equipment
- Assembly solutions

*Perfect fit for our belt specifications.*

**SPECIAL MACHINES:** We solve all your problems relating to process technology, based on expertise and years of practical experience.

- → Real-world solutions for practical application.
- Curved conveyor systems
- Separating plants
- Made in Germany

*Optimised solutions for all your applications.*
