

STRIKE!

OUR PRODUCT GROUPS AT A GLANCE:

ROD NETWORK BELTS: Made in music wire, stainless steel or K2390 steel, our rod network belts offer you all the advantages of open grid design and precise belt run.

- > Rod network belts are among the most popular conveyor solutions.
- > Small deflection radii
- > Grid structure for free liquid and air flow
- > Guided by various means

METAL CONVEYOR BELTS: Our metal conveyor belts made from round or flat wire spirals are designed for universal use.

- > These multi-purpose conveyors are particularly suitable for high-temperature applications.
- > With looped or welded belt edges
- > Permeable and temperature resistant
- > Made in stainless steel

PLASTIC CONVEYOR BELTS: We offer conveyor belts with a variety of coatings, including polyurethane, PVC, silicone, etc.

- > They have been specifically designed for applications where high processing quality is essential.
- > Food processing industry
- > Processing conveyor systems
- > Packaging technology

MODULAR CONVEYOR BELTS: Made of polyethylene, polypropylene or polyacetal, they offer robust flexibility.

- > With their modular design, they are the most convertible of belts.
- > Easy to extend/shorten
- > For direct contact with foodstuffs

SEPARATING BELTS: The elasticated silicone material allows for flexible width adjustment of the product over separating distance.

- > Advanced solution for special applications.
- > Product separation
- > Product combination
- > With anti-stick surface

SILICONE MOULDING BELTS: Märtens silicone moulding conveyor belts are available with customised surface structures and features tailor-made for your products.

- > The basis for your product ideas.
- > Temperature resistant up to 180° C
- > Excellent release properties
- > Shaped and structured according to customer specifications

TIMING BELTS: Made of thermoplastic or duroplastic polyurethane, they allow for precise conveyance

- > They are particularly suitable in cases where every millimetre counts.
- > Exact conveyance
- > Straight running
- > Diverse designs

ACCESSORIES: Our comprehensive range of additional services and accessories covers everything required for safe and reliable system operation.

- > For safe and secure system operation.
- > Drive and deflection components
- > Welding equipment
- > Assembly solutions

SPECIAL MACHINES: We solve all your problems relating to process technology, based on expertise and years of practical experience.

- > Real-world solutions for practical application.
- > Curved conveyor systems
- > Separating plants
- > Made in Germany

SMOOTH PRODUCTION

MÄRTENS conveyor belts for the baked goods industry

www.maertens-conveyorbelts.com

Tradition and innovation since 1929

WE HELP YOU GET BEST RESULTS

Delicious and healthy – with the right technology

When it comes to industrial production, you need more than just good baking to turn raw dough into crispy, freshly baked goods. The process technology, the machines and not lastly the belts on which the goods are transported do their part in producing a delicious finished product. Different dough consistencies and sophisticated ingredients confront manufacturers with technical challenges that MÄRTENS Transportbänder is happy to take on.

From raw to fresh out of the oven – quality for every stage of production

Cooking, baking, cooling, freezing, drying or conveying – MÄRTENS has just what you need for every work step in its product range. It is not uncommon for a single belt to be so versatile that it easily withstands exposure to different temperature zones. Extremely high quality requirements apply for all materials that we process, as they are in direct contact with food. On one hand, we place considerable emphasis on hygiene and health, as demonstrated by our food certificates: Even when dealing with aggressive, acidic substances, fats or brines, meals are guaranteed to stay contamination-free.

On the other hand, we focus on providing optimal support for your production processes. An example are the outstanding anti-adhesive properties of our belts that keep rejects to a minimum, even when dealing with delicate baked goods such as flaky pastry.

Your partner for delicious products:

We are happy to offer you a consultation

Working with us means your needs will be given careful consideration. Only this way are we able to recommend the products that are right for you for our mutual success.

Stay on the safe side with our approvals for food-grade products

- > FDA
- > USDA
- > VO CE 1935/2004

Shaped to perfection: Our innovative silicone belts offer a wide range of possibilities for creative product design.

Shaped according to your specifications Products for the baked goods production

MOVING AHEAD

About our company

A tradition of innovation – that's the company philosophy of MÄRTENS Transportbänder in a nutshell. We have served the market for over 90 years and today are a leading international provider of solutions in our sector.

Quality made in Germany

We are the only manufacturer to carry metal and plastic conveyor belts in our product range, which we have produced at our company headquarters in Flensburg since opening our doors. Special machine technology and services further complement our extensive portfolio.

Know what's going on

That's why we keep a close eye on the market. We also maintain an active dialogue with our customers to determine their needs and unique requirements. These efforts transform business relationships into long-term partnerships.

Always a step ahead

The high standard of our products is the result of decades of experience combined with MÄRTENS Transportbänder strength in innovation. As a result, we regularly unveil new innovations to ensure that our customers are always one step ahead in their markets. After all, we strive to make your production as reliable as possible.
