

STRIKE!

OUR PRODUCT GROUPS AT A GLANCE:

ROD NETWORK BELTS: Made in music wire, stainless steel or K2390 steel, our rod network belts offer you all the advantages of open grid design and precise belt run.

- > Rod network belts are among the most popular conveyor solutions.
- > Small deflection radii
- > Grid structure for free liquid and air flow
- > Guided by various means

SILICONE MOULDING BELTS: Märtens silicone moulding conveyor belts are available with customised surface structures and features tailor-made for your products.

- > The basis for your product ideas.
- > Temperature resistant up to 180° C
- > Excellent release properties
- > Shaped and structured according to customer specifications

METAL CONVEYOR BELTS: Our metal conveyor belts made from round or flat wire spirals are designed for universal use.

- > These multi-purpose conveyors are particularly suitable for high-temperature applications.
- > With looped or welded belt edges
- > Permeable and temperature resistant
- > Made in stainless steel

TIMING BELTS: Made of thermoplastic or duroplastic polyurethane, they allow for precise conveyance

- > They are particularly suitable in cases where every millimetre counts.
- > Exact conveyance
- > Straight running
- > Diverse designs

PLASTIC CONVEYOR BELTS: We offer conveyor belts with a variety of coatings, including polyurethane, PVC, silicone, etc.

- > They have been specifically designed for applications where high processing quality is essential.
- > Food processing industry
- > Processing conveyor systems
- > Packaging technology

ACCESSORIES: Our comprehensive range of additional services and accessories covers everything required for safe and reliable system operation.

- > For safe and secure system operation.
- > Drive and deflection components
- > Welding equipment
- > Assembly solutions

MODULAR CONVEYOR BELTS: Made of polyethylene, polypropylene or polyacetal, they offer robust flexibility.

- > With their modular design, they are the most convertible of belts.
- > Easy to extend/shorten
- > For direct contact with foodstuffs

SPECIAL MACHINES: We solve all your problems relating to process technology, based on expertise and years of practical experience.

- > Real-world solutions for practical application.
- > Curved conveyor systems
- > Separating plants
- > Made in Germany

SEPARATING BELTS: The elasticated silicone material allows for flexible width adjustment of the product over separating distance.

- > Advanced solution for special applications.
- > Product separation
- > Product combination
- > With anti-stick surface

GETTING A FRESH START

Märtens Transportbänder for the fish and meat industry

Do you want to make a progress?

Please let us know!

We are happy to answer your questions, provide additional material or a non-binding offer.

CLEAN SOLUTIONS

Fish and meat processing that meets the highest standards

Hardly any other area of the food production process is as sensitive as processing of raw fish and meat products – whether separation of ready-to-eat servings or preparation of convenience meals. Hygienic requirements are extremely high as the quality consciousness of consumers continues to grow. The finished product must leave the factory packed fresh, delicious and sterile at the end of the production process. MÄRTENS Transportbänder does its part to get you there.

Hygiene is paramount

In order to prevent substances or parts from the conveyor belt from ending up in the product, we select extremely robust material that is resistant to moisture, acid, fat and cleaners, doesn't fray and is cut-resistant. Our conveyor belts also take the freezing or heating of your products in stride.

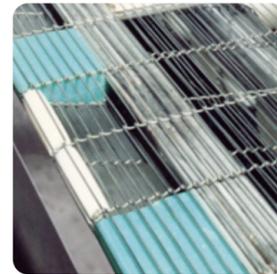

This resilience also means superior cleaning characteristics, which corresponds to a longer overall life cycle. Bacteria and germs don't stand a chance since nothing can stick to the smooth surfaces we use. The same goes for discolouration. With MÄRTENS, belt rips and folds are also a thing of the past.

Guaranteed to excel: our quality standards

Our products have of course been awarded all common certificates. A first-class consultation is also part of the deal. This also includes letting you know about new additions to our product range that are relevant for your industry such as our K2390 – a material that combines the positive characteristics of stainless and spring steel.

Stay on the safe side with our approvals for food-grade products

- > FDA
- > USDA
- > VO CE 1935/2004

Quality in its purest form: products for your industry

- > metal belts
- > rod network belts
- > PU conveyor belts
- > PVC conveyor belts
- > modular conveyor belts
- > silicone moulding belts
- > corner belts
- > timing belts

MOVING AHEAD

About our company

A tradition of innovation – that's the company philosophy of MÄRTENS Transportbänder in a nutshell. We have served the market for over 90 years and today are a leading international provider of solutions in our sector.

Quality made in Germany

We are the only manufacturer to carry metal and plastic conveyor belts in our product range, which we have produced at our company headquarters in Flensburg since opening our doors. Special machine technology and services further complement our extensive portfolio.

Know what's going on

That's why we keep a close eye on the market. We also maintain an active dialogue with our customers to determine their needs and unique requirements. These efforts transform business relationships into long-term partnerships.

Always a step ahead

The high standard of our products is the result of decades of experience combined with MÄRTENS Transportbänder strength in innovation. As a result, we regularly unveil new innovations to ensure that our customers are always one step ahead in their markets. After all, we strive to make your production as reliable as possible.
